Bible ... THOUGHT

THE IMPORTANCE OF THE HOME
By John B. Gill, Jr.

May 3-10 will be observed throughout the nation as National Family week, and many churches and organizations will be placing great stress on the importance of home and family life. It is intended as a week to remind us that the home is basic.

Scripture has declared to every generation that the home is the basic institution of society. It charges the home with the basic responsibility for the rearing of its children. No organization, however good, can take its place.

It is good for us to review the words of Deuteronomy 6:4-9. "Hear, O Israel: The Lord our God is one; and thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy might. And these words, which I command thee this day, shall be in thine heart; and thou shalt teach them diligently unto thy children, and thou shalt talk of them when thou sittest in thine house, and when thou walkest by the way, and when thou liest down, and when thou risest up. And thou shalt bind them for a sign upon thine hand, and they shall be as frontlets between thine eyes. And thou shalt write them upon the post of thy house, and on thy gates."

A child that does not have a good home cannot have the deficiency made up by groups like the school, the scouts, or even the church. When the home fails, nothing else can take its place. Every parent has the basic responsibility of giving his child a good home. To have a good home parents must accept spiritual responsibility as well as physical responsibility for their children. While the church cannot be a substitute for the home, it is nevertheless true that the home cannot fulfill its responsibility for the spiritual nurture of its children without the aid of the church.

Dr. Denman Speaks Tonight At Rally

The Glades Gospel Rally with Dr. Harry Denman as guest evangelist will be held in the Community Methodist Church tonight, (Thursday) at 7:30 p. m. Several denominations and churches will be participating in the service. Dr. Denman has been executive secretary of the nationwide Board of Evangelism of the Methodist Church for over twenty years and is an extremely effective lay evangelist of the Christian gospel.

There will be a large men's choir and all men who would like to be in it are invited to assemble in Jenson Hall at 7:15. The song service will be led by Mr. Roscoe Braddock. The Baptist Quartet will sing "How Great Thou Art" as a special number. Singers in this group are: W. L. Cunningham, Mrs. A. Thibault, Dalton Harrison and Dr. W. T. Forsee.

The church's tower chimel will begin at 8:45 as a reminder to the community of the approaching time for the service. Everyone is invited to the service and provision has been made for a nursery that will be open at 7:15. This will be a memorable people of the Glades. Our spiritual vision will be increased by the life and message of Jesus Christ.

Adventists Hold Session In Miami

Seventh-day Adventists from eight southeastern states met in Miami April 20-23 for their seventh quadrennial Session. Don Reed, President of the Southern Union Conference of Seventh-day Adventists, made his report to the session at the Bayfront Municipal Auditorium. Reed reported a 10 per cent membership gain. (Adventist membership figures do not include children) with an addition of 53 new churches in the Southern field in the last four years. He also reported that more than a million in tithes and offerings had been turned in during that period by the members of "Our southern churches." These figures do not include monies for local operation and expenses. Offerings for items such as these, plus most costs for parochial schools, are recorded as separate local funds.

H. H. Schmidt, president of the Florida Conference, Orlando, reported a 25 per cent gain in membership with ten new church buildings during the quadrennium and four more to be started this year. President Reed also told the delegates that Adventists now operate 37 major hospitals in the South plus numerous other medical facilities. Six of these hospitals are operated in Florida.

Top grade high-production replacement dairy heifers may be produced in the Gladeslands following the system of the Prison Farm, at from \$135 to \$165 each.

Because of the "new look" in prison operation initiated by the politically-harassed Director R. O. Culver, more inmates at the Glades institution are using, and beef production are referred to the Everglades Experiment Station, which in turn runs on Gainesville if necessary.

The station asks the Prison Farm to follow procedures designed to research in allied dairy and feed problems. This mutually agreeable working arrangement permits the

Each of the Experiment Station and the Prison Farm — advances its own project at greatly lessened budget. Including costs for housing feed, security, administration and considered use of labor above comfortable necessity for the job, the local organization is producing milk at a figure competitive with private enterprise.

To provide this rehabilitation of inmates through training in useful occupations, and to demonstrate the economic feasibility of milk production in dairy herd replacement, and to save the taxpayers money, an expansion of the operation is provided by the current appropriation bill for the institution.

Feedstuffs and provisions produced at the Glades Farm are generally sold to other state institutions at current market prices, less 10%. It is expected that milk production up to 750 gallons per day is allowed here, the excess of 600 gallons are sold to the state by state institutions daily at a saving of \$30 per day to the taxpayers and a "profit" to the local institution of \$30 per day.

These figures are arrived at the following manner: The average annual price of Grade A milk in this area is about 55¢ per gallon. Milk distributors give public institutions, hospitals, etc., a 10% discount, or a 50¢ rate. Taking a further 10% discount the milk base would be 45¢ to these state institutions. These figures would be greatly increased, because processed milk is sold to these same institutions at these approximate figures: 90¢ per gallon in bulk; 26¢ a quart in pints and 27¢ in half pints. The Prison Farm would pasteurize pack and deliver the milk daily with a comparable profit over these figures.

These institutions would have a dependable source of supply
